

ANNUAL TUITION FEES

Morning Class

\$2,250.00 – 5 days per week (\$225.00/mth)

\$1,900.00 – 4 days per week (\$190.00/mth)

\$1,500.00 - 3 days per week (\$150.00/mth)

\$1,100.00 - 2 days per week (\$110.00/mth)

- ❖ Payable over a 10 month period or
- ❖ Receive a 5% Discount if Paid in Full

Registration Fee: \$100.00

HOURS

AM Classes- 8:30am-11:30am

A FEW THINGS THAT SET US APART

- At the end of each term we give the parents a DVD with a slide show and videos of their children
- Field trips allow the children to learn in a "real world" environment.
- Spanish instruction to enhance the overall development of the children.
- Physical Education & Healthy Living Classes teach the children about the importance of exercise and good nutrition.
- Dance and Sing with JanellyBean introduces children to a fun way of learning music.
- MISS TRACI! She brings fun and love into the learning process for the children.

REPORT CARDS

Daily report cards will be sent home with your child for your convenience in monitoring your child's daily activities and keeping you updated on concerns and events.

Reports will also be sent home each Trimester to help you track your child's progress.

REGISTRATION INFORMATION

For children 2 ½ to 5 years of age. Child must be 2 ½ years old by September 1st.

PHILOSOPHY

Winters' Wonderland is a safe, comfortable learning environment where we do the extra little things to make this a fun, memorable, and educational experience for both the children and the parents.

STAFF

Miss Traci has been lovingly working in daycare and preschool settings for 12 years. She is a licensed Early Childhood Educator who is actively engaged in continuing education and maintains active First and CPR certification.

THE IMPACT OF A HIGH-QUALITY CURRICULUM

For a long time the jury was out regarding the best approaches to childcare and early childhood education. In the last two decades, however, the verdict has been decided. More and more research confirms that children's healthy development and success in school is heavily influenced by their involvement in a quality childcare program (Peisner-Feinberg 1999). During the first five years of life, the emotions a child feels, as well as what a child sees, hears, and experiences, are ingredients for brain development. These critical years provide a small portal of educational opportunity that will impact a child the rest of his or her life. For this reason, there is a compelling responsibility to offer high-quality curriculum materials, such as Winters' Wonderland provides, that developmentally impact the quality of care and education of young children.

OUR CURRICULUM

➤ General Preschool Curriculum:

The focus of our preschool curriculum is to prepare children socially, emotionally and academically for the many challenges that elementary school brings. We believe in a developmentally appropriate curriculum for children two to five years of age, presented in an environment which fosters the individual child's emotional, social, physical, and cognitive skills.

We create an environment that supports and develops a love of learning, respect, cooperation, leadership, an ability to make choices, pride in individual accomplishments and problem solving skills. Our goal is to promote learning through the joy of discovery. Children, supported by Miss Traci, are constantly thinking, exploring, experiencing, learning and testing new skills, and creating good habits for a lifetime of learning. As the children grow and develop in our program, they are both nurtured and challenged as they move towards the greater independence that elementary school brings.

➤ Preschool Spanish Immersion Class:

This program utilizes a multisensory approach that teaches academic and social language skills through games, music, art, role-playing, and spontaneous conversation. This approach assures that the diverse modalities of the class are being addressed, so that each student is engaged and learning.

We believe that the most important element in teaching children a second language is to provide a creative and nurturing learning environment that builds self esteem and confidence in each child.

OUR CURRICULUM CONTINUED:

➤ Physical Education & Healthy Living Classes:

We utilize a preschool physical education program designed to instill healthy lifestyle habits in children ages 2-5. Small children are taught all about their bodies and how they work. Topics such as the heart, lungs, muscles, bones, brain, mouth and nutrition are a regular part of the program.

Specifically, the physical education curriculum incorporates movement and preschool fitness activities such as aerobics, dance, stretching, gymnastics sports, strengthening exercises, gross motor skills and balance. Children learn about overall health, diet, nutrition, healthy food choices and fitness. The program helps preschoolers develop self esteem and positive associations with exercise, healthy eating and rest.

➤ Dance and Sing with JanellyBean: (AM Class)

Dance and Sing with JanellyBean introduces children to a fun way of learning music with instruments, singing and dancing to original, as well as traditional, children's songs. Music Time encourages your child to uncover an engaging musical world while building confidence, self-control and communications skills.
